We understand that medical information about you is personal and confidential. Be assured that we are committed to protecting that information. We are required by law to maintain the privacy of protected health information and to provide you with this Notice of our legal duties and privacy practices with respect to protected health information. We are required by law to abide by the terms of this Notice, and we reserve the right to change the terms of this Notice, making any revision applicable to all the protected health information we maintain. If we revise the terms of this Notice, we will post a revised notice and make paper and electronic copies of this Notice of Privacy Practices for Protected Health Information available upon request. We are required by law to notify you in the event of a breach of your protected health information.

For treatment: We may disclose your medical information to doctors, nurses, and other health care personnel who are involved in providing your health care. We may use your medical information to provide you with medical treatment or services. For example, your doctor may be providing treatment for a heart problem and need to make sure that you don't have any other health problems that could interfere. The doctor might use your medical history to determine what method of treatment (such as a drug or surgery) is best for you. Your medical information might also be shared among members of your treatment team, or with your pharmacist(s).

To obtain payment: We may use and/or disclose your medical information in order to bill and collect payment for your health care services or to obtain permission for an anticipated plan of treatment. For example, in order for Medicare or an insurance company to pay for your treatment, we must submit a bill that identifies you, your diagnoses, and the services provided to you. As a result, we will pass this type of health information on to an insurer to help receive payment for your medical bills.

For health care operations: We may use and/or disclose your medical information in the course of operating our practice. For example, we may use your

medical information in evaluating the quality of services provided or disclose your medical information to our accountant or attorney for audit purposes.

In addition, unless you object, we may use your health information to send you appointment reminders or information about treatment alternatives or other health

related benefits that may be of interest to you. For example, we may look at your medical record to determine the date and time of your next appointment with us, and then send you a reminder to help you remember. Or, we may look at your medical information and decide that another treatment or a new service we offer may interest you.

We may also use and/or disclose your medical information in accordance with federal and state laws for the following purposes:

- We may disclose your medical information to law enforcement or other specialized government functions in response to a court order, subpoena, warrant, summons, or similar process.
